

WHAT IS VARITALK

VARITALK is a speech synthesizer for the 48K Spectrum using software only.

NO EXTRA HARDWARE REQUIRED!!!

It has a virtual unlimited vocabulary. Any word, or sentence, can be simply created using phonetic codes from the table shown.

TO LOAD VARITALK

First reset the computer by disconnecting and reconnecting the power lead. Make sure that the leads from the computer to the tape recorder, and the volume control, are set correctly. (See SPECTRUM MANUAL). Type: LOAD"" or LOAD "VARITALK" and press the 'ENTER' key. Once VARITALK has loaded (approx. 4 mins), you should hear it say: "VARITALK HAS BEEN LOADED AND IS READY FOR USE". The screen should then return to its power-up state. There is a DEMO program on the tape after VARITALK called DEMO. To load it use: LOAD"" or LOAD "DEMO".
