Your first deal earns you only a royalty, subsequent deals earn a royalty and an immediate advance.<br>Once the deal is made, your cassette goes on sale in a BUGMART, earning revenue from every player that lands there.<br>Every time you hit RETURN you get a new IDEA and collect your royalties, calculated as your QDOS multiplied by your royalty percentage.<br>When you GOTO KEYBOARD you must go directly, you must not hit RETURN, you must not collect your earnings, and you must stay there until you throw a six, or steal somebody else's IDEA.<br>BERGSTROM takes your last game and bundles it with this new micro. This doubles your income on that game. | <b>BUG MART</b>                       | TOTTENHAM COURT RD.<br>TAKE QDOS CARD   | BANDWAGON PUBLISHING<br>GOTO LUNCH | ?                                | FRIENDS LUV IT<br>THROW AGAIN |
