# STRIP POKER

## RULES

Hi there. My name is Ossie! I am here to teach you to play striptease poker, this one is the popular five card draw type.

The computer will deal you and Mindy five cards each. There is a round of betting when the bets are equalised. You or Mindy reject unwanted cards from your respective hands and will be dealt replacements from the pack. The idea being to finish with a better hand than the original dealt. This is known as the draw. After the draw there is a new period of betting on the final hands. When the last bets are equalised there is a show down and the best hand wins.

At any of the betting stages you may either STAND (which means do nothing) or BET (up to 25 pounds) or FOLD (which means to concede the hand).

Remember Mindy has all those options open to her and she may be bluffing.

Here are the house rules you must remember.

You start with 150 pounds each and may have to sell an article of clothing, each article + 150 pounds.

At the start of each round of betting 5 pounds is taken from each player as the "ante bet". You may bet on each hand upto a maximum of 25 pounds.

### **CARD CHANGE**

Press the number on your computer keyboard that corresponds to the flashing number on the screen. Maximum of four cards may be changed at any one time.

### **RAISING, CALLING & FOLDING**

Is achieved by pressing the cursor key "7". Depress this key until you achieve your desired command. On obtaining your desired move press enter.

### **BETTING**

When Ossie asks if you want to bet, press enter to confirm. To raise or lower use keys "6" or "7" to lower or raise your bet respectively. Upon deciding the amount you wish to bet press "enter".
