

## SOLO-WHIST

for ZX Spectrum (16K or 48K)

---

### OPERATING INSTRUCTIONS

1. Put the cassette in your cassette recorder and connect the recorder 'ear' socket to the 'ear socket on your ZX Spectrum.
2. If your recorder has a tone control set it to high. Set the volume control to about the halfway mark. you may need to experiment to find the best position.
3. Using the Spectrum keyboard type LOAD "solo" ENTER
4. Press the 'play' button on your recorder.
5. When the program has loaded the 'card table' is displayed on the screen. Stop the recorder. The computer will deal the cards and show you your hand. Your three opponents are controlled by the ZX Spectrum. The computer will indicate when it is your turn to play.
